Instructions

Read the enclosed card for details of how to start the game and how to save the state of play.

If the program stops, this is because it is printing more text than will fit on the screen. When you have read the visible of the text, press SHIFT (or RETURN if you have an MSX) and the program will continue.

The program asks "What next?" whenever it expects you to enter a command. Simply type an English phrase to tell it what to do and press the RETURN (or ENTER) key. The program will act on your request, then ask for the next command and so on.

The game knows an extensive vocabulary of English words. It scans your command, picking out the words which it recognises and working out the meaning from them. Only two or three words are used from each phrase so it pays to keep things simple.

Words can be abbreviated (e.g SOUTH to S and SOUTHWEST to SW) and, to help you get started, some possible instructions are summarised below:

INVENTORY
LOOK AT TRAIN
EXAMINE SHOVEL
TAKE COIN
LOOK AROUND

SCORE
OPEN DOOR
DROP CANOE
PULL ROPE
EAT FOOD

AGAIN (or A) repeats the previous command. IT means the previous object. E.g: LIGHT LAMP and then EXAMINE IT

WORDS just print words (to speed things up) and PICTURES turns these on.

Scoring

Collect valuable objects and avoid getting killed.
